

## AFFIDAVIT

### DECLARATION OF INTENTIONS AND CLAIM OF RIGHTS AND SOVEREIGNTY

I declare that:

I, **Cipix Freeman**, formerly known as C.C.G., and henceforth known as **Cipix Freeman of the REML**.

1 – As a free man enlightened on Earth, I intend to act peacefully for the benefit of the community, and with the firm intention not to break the peace. That this declaration is a claim to sovereignty protected by the inalienable rights of all souls born free, and under the rights granted by Natural Law, by the work and grace of our Creator. That I am a divine creation incarnated in a physical body of flesh, bones, viscera, blood and that breathes.

Who, as a divine creation, is in the possession of a sovereign and individual soul. That I have a rational mind, that I am a living being that recognizes the Creator. That I understand that no soul is above another soul, and by means of this oath, I declare that I know the truth and the law:

2 – Whereas it is my understanding that, in terms of earthly existence, there is no more supreme species of life than man. It is my understanding, that it is impossible to distinguish a single soul from any other, and therefore all souls must be considered at all times, in all respects and situations, equal in a reasonable and fair context. Whereas it is my understanding that, anything and everything that in practice we are and do, derives from the law of God. Considering that it is my understanding that any numerical grouping of such souls, can be associated by mutual consent to live according to their cultural legacy, interests, needs and for the benefit of the community, it should be referred to as PEOPLE. It is my understanding that a people creates a society, which in essence is a group of soulmates, and is defined as a group of human beings united by mutual consent to deliberate, determine and act for a common goal and protected by rights. inalienable, subscribed to the doctrine of the Universal Declaration of Human Rights, Adopted and proclaimed by the General Assembly in its resolution 217 A (III), of December 10, 1948.

3 – Considering that it is my understanding that freedom, justice and peace in the world are based on the recognition of the intrinsic dignity and equal and inalienable rights of all members of the human family.

4 – Considering that it is my understanding that ignorance and contempt for human rights have led to outrageous acts of barbarism for the conscience of humanity; and that it has been proclaimed, as the highest aspiration of man, the coming of a world in which human beings, freed from fear and misery, enjoy freedom of speech and freedom of belief. Whereas it is my understanding that it is essential that human rights are protected by a regime of law, so that man is not compelled to the supreme recourse of rebellion against tyranny and oppression.

5 – Whereas it is my understanding that it is also essential to promote the development of friendly relations among nations.

6 – Whereas it is my understanding that the peoples of the United Nations have reaffirmed in a letter their faith in the fundamental rights of man, in the dignity and worth of the human person, and in the equal rights of men / men and women / females; and they have declared themselves determined to promote social progress and raise the standard of living within a broader concept of freedom.

7 – Considering that the Member States have undertaken to ensure, in cooperation, universal and effective respect for the fundamental rights and freedoms of man.

8 – Considering that it is my understanding that a common conception of these rights and freedoms is of the utmost importance for the full fulfillment of said commitment, for the record, I make the following statements both about what I have in knowledge, and how I am It has made the state feel, since the universal declaration of human rights, the Montevideo convention and the Vienna convention have been broken towards my being.

9 – Everything is based on his perception, on man's own will, without taking into account God or his law, it is what is called practicing secular humanism, man decides what is good and bad, democracy violates many times the inalienable rights that we possess. We cannot ignorantly pretending to believe another human being, I will give some examples:

- Slavery is illegitimate, no man can deprive another of his freedom (not totally or partially).

A person is any being with the capacity to have rights and duties, everything can be a person, from my dog to a garbage container. We speak of the natural person, a natural person is a human being capable of having rights and duties, a human being, is a human being, are there human beings capable of being governed by others equal to him? It may be, but the fact is that I don't, for the simple fact that I don't want to. Cultural identity, the fact of belonging to a people / tribe is by affinity in terms of ideals, rituals, culture, customs and practices, given that I am not a practitioner of secular humanism, that I know the fraud of the birth certificate and since I do not I do more than argue against your customs, laws and practices, my affinity towards the SPANISH STATE is null, without that affinity, without ID, without passport, without legal name, or documents of any kind related to your state, the only relationship that I have with the SPANISH STATE is the one that you want to impose on me, I do not agree with the way of thinking of the Spanish, nor of SPAIN, I am apolitical because I understand politics and it is nothing more than a tool of mass control, people unconsciously vote waiting for a messiah to come and fix everything, or at least not make it worse, society has become conformist, to the point that it allows corruption and sees it as normal, when corruption that seen externally, it is nothing more than a reflection of what society is suffering internally.

- In a democracy, nobody owns anything, everything belongs to the collective and the collective will regulate your property when you break your own laws, those that you ordered the politicians to do, for example, you just have to see how you have taken me away.

A lot of promising notes in the past, to me and my poor parents taking over. Good people who were not very well treated, deceived by doctors, lawyers and various public officials, in matters relating to my being. I have been able to make mistakes in the past for being poisoned, yet I always had a light that guided me. You will not steal covers all the other commandments, for example you will not steal a life, you will not steal an honor, you will not steal .. etc. And what I respect and exercise with honor. Under the Law of God. Using trade through diplomatic and friendly relations of peace, with the other states, I understand that I must not consent to any more grievances to my being. Demanding to get out of the fraud and all the records made through the DNI, since the OPTT of the town has already demonstrated and executed the trust of the town, seizing all the fraudulent corporations, being demonstrated since 2012. Claiming my soul through the OPTT (The One People's Public Trust) of the town of UCC UNIDROIT AND LEX MERCATORIA and subject to the honor codes.

I proclaim my embassies REML No A-011.006.999 (with registration number and all the documentation which I enclose in the REML foundations, the legitimacy being demonstrated.

In C/ La Peña, number 12 of the village 22370 Oto, of the province of Huesca, of the Iberian Peninsula nation.

This document is written from my living being and under the language of popular understanding and RAE without falling into deceptions of different religions, scientific, health, legal system, all of them with their own language and code.

Also understanding that:

News to the agent, it is News to the principal and News the main one, it is News to the agent.

I leave notified with this writing, in this office of the Oto City Council, understanding that I am with my physical and mental faculties well, to create and manage my records in my King James Bible 1611 and through my embassy REML No A-011.006.999, protected under the Montevideo 1933 convention, the Treaties of Vienna, and under the declaration of UDHR.

Being fully responsible for taking care of my health. Also understanding the Essene way of returning to God through Integral Naturism and non-invasive natural medicine. Rejecting any other health treatment that is not under the Essene perspective and [Dr. Hammer's 5 Laws of health](#).

God gives us life with the right and duty not to pollute the water, the earth, he gives us the right to breathe pure and clean air, free of heavy metals and various elements of different toxicity.

I proclaim myself the owner of my living being and my right to life. For having been sired for 9 before delivery. To my right not to be intoxicated by various systems, such as the official health system that advocates under the [WHO] guidelines for clearing and not for the cure of the disease.

I have suffered in my flesh many times with malpractice from public professionals who should have treated me with respect and not with prejudice damages.

Anyone who tries to separate me from the sacred path under bad praxis and in breach of natural law, God's law, will be doing a criminal act towards my being and I do not give my consent to the introduction of any poison into my body, or heavy metals, or Fetus DNA, nor human DNA, as in vaccines, which it comes from [fetuses obtained from abortions], nor any instrument of any technology. As well as practices derived from allopathic treatment. For being antagonistic to my perspective of real health.

Demanding that the Law of God be respected and that the rulers serve the interests of the people, as dictated by the Constitution in its 1st article, with respect to their oaths and estates.

I appeal to the legal system to defend with the Law of God in which I am protected, the interests of the people and all its officials who respect their oaths to the Constitution and respect all the signed treaties and the UDHR and various conventions such as that of Bern , which must be respected by postal officials.

I ask human beings (in the colloquial language of the RAE) to act with honour and respect for the living being and for life and for the benefit of peace and coexistence and the good community. By ceasing to comply with unconstitutional orders since from Nuremberg the Nazi officials did not serve them the "I fulfil orders" and created a precedent. As well as officials are also obliged according to article 5.6 of their Civil Code to assume responsibility for the orders they are carrying out.

I ask that the elderly be respected and that they be truly cared for, that they are not victims of wrong protocols that are harmful to their health, as well as that children be respected and that all crimes committed against them be judged by God's law. through men, through the courts of justice. That such crimes are not allowed and all crimes against humanity stop being committed, I appeal to the responsibility of human beings that are behind corporate fictions, so that they respect the law (there are no interpretations) appealing to the goodness of the majority of human beings and in the majority of hearts and good people of good and stop extorting and being extorted, poisoned, enslaved and accomplices of fraud and earned their energy by the legal system, through financial entities.

I own my creation and I have the authority of everything I create, as well as the right to exchange my pictorial creations and my literary creations.
